*Twas the night before Christmas, and all through the house,
Electricians were working, to avoid frying the mouse,*

*The **High Voltage** was stepped down, through **Transformers** in place,
For **Power and Lighting**, to light up the space,*

*Wires were **Meggered** and **Voltage** checked out,
No **Amps** could go stray, or plugs be in doubt,*

*The cold was kept out, by **Furnaces** and heat,
Careful checking by **Mechanics**, insured warm feet,*

***Boilers and Sprinklers, Ducting and Vents,**
Were closely looked over, by the **Mechanical** Gents,*

*The **M.E.P. Team**, performed **Scoping and Cost**,
And checked out the systems, to keep out Jack Frost,*

*From **Canada** to the **USA**, from cold to the heat,
Instrumentation and **robotics**, checked out complete,*

***Systems processing, controllers, and starters** galore,
Were **scoped** by our **technicians**, in order to **restore**,*

And so it was that they avoided frost bite,

Merry Christmas to all, and to all a good night.
