## Estimators

*Twas the night before Christmas, and all round the house,  
Estimators were measuring, the size of the mouse.*

*Data uploaded, from site via the Cloud,  
The speed of the process, made even the Estimators proud.*

*Dimensions were measured, from the uploaded Scope,  
Footprints and elevations, and even roof slope.*

*Areas by building, and Locations by room,  
For repairs that would be needed, so occupants may resume.*

*Quantities were calculated, for each specific space,  
All entered into the computer, for a unique Data Base.*

*Items were created, from low to high,  
All organized by Trade, in the new CSI.*

*Labor, Material, Equipment and Tax,  
All carefully verified, by email or fax.*

*General Conditions, Insurance, and Contractors Risk,  
Assumptions and Exclusions, completed the disk.*

*Estimates were printed, and bound in a way,  
That they could easily be packaged, in the back of Santa's Sleigh.*

*The sleigh fully loaded with Estimates packed tight,*

*Merry Christmas to all,  
and to all a Good Night.*
