Construction Consultants & Engineers

Property Loss Consulting Group

*Twas the night before Christmas, and all through the house,
Property Loss Consultants were busy, which kept up the mouse.*

*Assignments were sent, by voice and email,
To our Construction Consultants, to complete without fail.*

*On projects under construction, where activities were brisk,
We spring into action, cos' it's Builders Risk.*

*Losses were monitored, despite all the quirks,
That comes with the territory, when you are the Clerk of the Works.*

Claims were documented by day and by night

Now we're more efficient, with our own

*With 11 Separate Professions, all strategically placed,
Our 260 employees are ready, without a second to waste*

*Through Hurricanes and Earthquakes, Tornado's and Floods,
After 30 years of inspections, our teams are all still good 'Buds'*

So with Chris, Trevor and Barry, our guiding light(s)

*Merry Christmas to all,
and to all a Good Night.*
